

HILL COUNTY HEALTH DEPARTMENT

302 4th Avenue Havre, MT 59501 • 406-400-2415 • hillcountyhealth.com

Public Health
Prevent. Promote. Protect.

The Hill County Health Department is providing the attached guidance to those who are planning activities during Phase Two of Governor Bullock's reopening plan.

This guidance should be used to determine whether your activity can be carried out under Phase Two in a way that will prevent the spread of COVID-19 in our community.

We are asking that all who are planning activities during Phase Two, submit a plan to the Health Department to keep on file as tangible evidence that Hill County is meeting the requirements of Phase Two.

The public plays a key role in reopening Hill County safely, reducing the possibility of having to reintroduce restrictions, and allowing a sustained economic recovery.

Play your part in safely reopening Hill County by using this guidance to plan your activities.

Please contact the COVID-19 Information Email at hchd@hillcounty.us should you have specific questions about your activities, or call the Health Department at 406-400-2415.

To review the guidance documents from the Governor and all other COVID-19 related information from Hill County, visit <https://hillcountyhealth.com/covid-19/>.

Guidance for Activities

Montana moved to Phase Two of the Governor's Reopening Plan on June 1, 2020. All guidance is subject to change without notice. For the most updated guidance, visit <https://covid19.mt.gov/joint-information-center>

We encourage you to think carefully about your activity and whether you can meet the Governor's guidelines. The Phase Two guidelines are as follows:

Community members should not convene in groups of more than 50 non-household contacts without proper social distancing.

Both indoor and outdoor activities should allow for proper social distancing, providing at least 6 feet of separation between non-household contacts. This could include:

- A reduction in the occupancy capacity of a building or space
- A reduction in seating
- A reduction in the number of individuals invited to the activity
- Conducting the activity in shifts, where applicable

Frequently touched or shared surfaces should be cleaned and sanitized regularly.

Handwashing or hand sanitizer must be available. Where restrooms are provided, hand sinks with soap, water and paper towels must be provided.

Where food is served, products must be packaged or otherwise in a "grab and go" form. No shared serving utensils or buffets should be allowed.

Individuals who are ill or otherwise experiencing symptoms such as a new dry cough, fever or shortness of breath should not be permitted. The hosts of the activity should consider both having a record of participants and a health screening.

Please email the COVID-19 Information Email at hchd@hillcounty.us or call the Health Department at 406-400-2415 if you have specific questions.
